The Fall of Satan and Rise of the Antichrist - Craig White - 2014-11-09

Some important Bible prophecies are about to overtake us! This book corrects prophetic misconceptions. It also helps us to understand the season. Many teachers have said that Christ's coming is eminent. But their accounts are too often generalized. This book identifies very specific milestones on the trail to Christ's return that can be observed today. Many prophecies are just now coming into focus. This book is loaded with commentary on important Bible prophecy. It explains how the coming of the Antichrist is the sign of the Rapture.

This book contains some of my most important commentary, like "The Leopard is Upon Us!" about the formation of the final gentile world empire. It also identifies the city called Mystery Babylon. You will find clear interpretation here that you can scarcely find elsewhere!
